VOLUME CVIII.--NO. 5. ALEXANDRIA, VA., SATURDAY EVENING, JANUARY 5, 1907. PRICE 2 CENTS.

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyspepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he loses strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body, considered as a whole, is made up of its several members and organs, so the weakness of the body as a consequence of "weak" stomach will be distributed among the organs which compose the body. If the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew dizzy, eyes pained me, and my stomach was sore all the time, while everything I would eat would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble due to dyspepsia, and prescribed for me, and although I took their powders regularly yet I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery—and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so I kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never cease to be grateful for what your medicine has done for me and I certainly give it highest praise."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own body—in sickness and health—send for the People's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 663 Main Street, Buffalo N. Y.

The Constant Wearing of a Hat Propogates Dandruff Germs.

There are many men who wear their hats practically all the time when awake, and are blessed with a heavy shock of hair; yet if the scalps of these same men once became infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herpicide kills these germs and stimulates unhealthy hair to abundant growth. Herpicide is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. MINISTER ATTACKS BIBLE.

Rev. Dr. W. C. Sellect, pastor of the First Universalist Church, Providence, R. I., has just written a book, "The New Appreciation of the Bible," issued a day or two ago by the Chicago University Press, in which he attacks many of the popular fancies of orthodox Christianity, lauds the higher criticism and presents a new view of the Bible's value. Many of his theories are identical with those of Prof. George B. Foster, of the University of Chicago, whose recent volume, "The Finality of the Christian Religion," caused a stir in theological circles.

"By false methods of interpretation, or by the absence of all methods," his book says, "the Bible has been made to teach almost every conceivable doctrine and to support many a terrible wickedness—slavery, polygamy and the subjection of women—and the tap root of all these erroneous teachings, darkening counsels and unholy sanctions has been the idea of plenary inspiration and infallibility of the scriptures.

"When this idea shall fade out of the popular mind, being replaced by the more valid conception, some of the perversions and absurdities of religious doctrine will pass away which have claimed and still claim, their tens of thousands of adherents; some hoary superstitions and cruelties which have darkened our world will disappear and opportunity will be offered for the upspringing of a fairer, more beneficent type of religion and civilization."

Dr. Selleck declares the Bible should be considered merely as a piece of literature, as a "collection of ancient writings, not a single book, but a library of 66 different books."

Dr. Selleck states, also, that the Bible is full of inaccuracies, historically and scientifically; that the story of the creation is unscientific; that nearly everything can be proved by the Bible; that the real authors of many of the books of the New and Old Testaments are unknown, and that Christ was not quoted until a generation after his death.

SENATOR TILLMAN IN MARYLAND

In a characteristic speech Senator Benjamin R. Tillman, of South Carolina, made another attack on the negro yesterday evening in the opera house in Salisbury, M. D. There was not a negro in the large audience of more than 800 persons, and from the applause which greeted the hot language of the speaker it seemed that the audience was in sympathy with the Senator.

The Senator compared the negro to the baboon. He called him "the missing link" and finally declared he saw serious trouble and bloodshed ahead in the South as a result of the negro question which, he declared, was the most important thing confronting the American people. As Senator from South Carolina he declared no negro was as good as a white man in his State and that every white man in South Carolina believed he was just as good as anyone who walked in shoe leather.

The constant outrages upon the white women in the South, he declared, would ultimately terminate with an immense amount of bloodshed. He said it was not the desire of the whites to do anything of the kind, but that the whites did not intend to allow the negroes to butcher them.

When he touched upon the point of equality the Senator became most earnest. He declared that if he could look back into the past to study conditions he certainly could look ahead, and then he pictured what might happen in a case of equality. This he called mongrelization. He declares the people would become a ginger cake color in the course of years. He concluded by saying that "we want the world to know that South Carolina will not be mongrelized so long as there is such a thing as the State of South Carolina."

Demand Increase in Wages.

Managers of railroads throughout the country are facing fresh demands for an increase in wages and better working conditions that will startle, it is declared, the entire industrial world. A conference of labor leaders, representing nearly all classes of railroad labor, was in session yesterday in Chicago to initiate the move. A universal eight-hour day and a wage increase of from 5 to 20 per cent. are the demands that will be brought to the attention of the general managers of not only the 23 systems centering in Chicago, but on nearly all the roads in the United States, Canada and Mexico.

The conference, it was said, came as a shock to railroad officials in Chicago, who are already listening to the arguments of locomotive engineers for a greater increase in pay. The fresh demands follow negotiations between the roads and the switchmen, who were granted an increase amounting to 13 per cent., in conference held in Chicago in November.

Many roads throughout the country voluntarily raised the pay of the employes and millions of dollars were added to the pay rolls of the roads by the additional advance in wages.

Agitation for the eight-hour day, it was understood, was to be left to future discussion. The law, it was declared, would prove impossible of enforcement under present conditions.

Assault in Northampton.

Commonwealth's Attorney Wilkins, of Northampton county, has written Governor Swanson giving some details of a criminal assault committed by Luther T. Beloit, a white man, upon a married woman living at Wardtown, in the northern end of that county. The place is remote from the county seat. The crime was committed on December 24, but did not come to the knowledge of the officers until within the last day or two. Governor Swanson has offered a reward of $100 for the arrest of the man. The supervisors of the county are expected to offer a much larger reward. The officers have a good picture of the man and also a good description of him. At the time of the assault the woman's husband was away, and she could get no assistance. Beloit was, therefore, able to make his escape, but the county authorities are doing all in their power to apprehend him. The section of the county in which the assault was committed is thoroughly aroused and the greatest indignation prevails.

A Tragic Finish.

A watchman's neglect permitted a leak in the great North Sea dyke, which a child's finger could have stopped, to become a ruinous break, devastating an entire province of Holland. In like manner Kenneth McIver, of Vanceboro, Me., permitted a little cold to go unnoticed until a large tragic finish was only averted by Dr. King's New Discovery. He writes: "Three doctors gave me up to die of lung inflammation caused by a neglected cold; but Dr. King's New Discovery saved my life.' Guaranteed best cough and cold cure at E. S. PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause.

If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

SATURDAY EVENING, JAN. 5, 1907.

JUDGING FROM sworn testimony given by every witness examined in both the coroner's investigation and that of the Interstate Commerce Commission into the recent B. & O. Railway horror, the block signal system falls far short of being an infallible protection to the travelling public. A system, the possibilities of which have seemingly been probed to the limit by the most prominent railroad experts of the day, and which has been pronounced a perfect protection by all has failed. The Interstate Commerce Commission has already come to a realization that when engineers and conductors, on the stand under oath, express a vague uncertainty concerning the exact and proper significance of the signals, which wrongly interpreted may mean death to scores of passengers, a system must be devised which can be relied upon to furnish an absolute and automatic preventive of collisions. It was for this reason that the commission sent a letter to Congress yesterday asking for an appropriation to further the development of a number of automatic safety devices which recently have been invented. Both engineers of the trains figuring in the Terra Cotta disaster of last Sunday night were unable to say just what they would be required to do should they approach a station 20 seconds before its supposed closing time and fail to recieve any signal whatever. Although Dispatcher Dent states it to be the requirement for an operator to remain on duty until his block has been vacated, the enginemen understood that after 6:30 p. m. such a station as Takoma was "dead" and did not have jurisdiction over passing trains by its block signal. Engineer Hildebrand says that in a case like that of Sunday night he would have expected a torpedo and signal from a red hand lamp. In the opinion of many there exists a serious confusion of rules in the minds of employes instrusted with the safety of the lives of passengers. According to the testimony adduced, there has also been a laxity in the administration of discipline and a desire to avoid trouble with the men on the part of their superiors. Instead of being discharged for serious breach of block signal regulations, the men are suspended from duty for a limited number of days and allowed to resume service with a possible added feeling of security by reason of the fact that they have not lost their positions.

BY DIRECTION of the President, Secretary Hitchcock yesterday issued an order to Commissioner Richards of the general land office to at once notify all special agents and receivers and registers of local land offices that the act of February 25, 1885, for the summary destruction of illegal inclosures and obstructions existing on public lands will be rigidly enforced after April 1, 1907. This order means that all the fences inclosing public lands in violation of law must be removed before April 1. If they are not taken down by that time they will be torn down by representatives of the government. Two or three years ago President Roosevelt sent Col. J. S. Mosby, of this State, out to the northwest to enforce the self same law, but when the Colonel commenced to carry out the President's instruction he was suddenly recalled and sent to Alabama. The reason was that the land grabbers of the northwest threatened the President that if he did not recall Col. Mosby the northwestern States would go against him at the next election. Col. Mosby was at once recalled. If it is really intended that the law shall be enforced Col. Mosby is the man to enforce it.

THE Secretary of the Interior is investigating United States Senator Francis E. Warren, of Wyoming, chairman of the Senate committee on military affairs. The Senator is charged with being a "land grafter," it being alleged that he has fenced in and appropriated to his own use, public lands in his State. The charges are of formal character and are accompanied by various data, maps, etc. The name of the person who filed the charges is not disclosed. President Roosevelt himself is said to have inspected the papers neither he nor Secretary Hitchcock believe the charges, but they feel that a careful inquiry would be but justice to the Senator. Both the President and Secretary should realize that it will be equally just to the country to investigate the charges closely. The Senator denounces the charge as false, and declares that they are pushed solely for the purpose of persecuting him. He has invited the fullest investigation. The lands in question are located near Cheyenne, Wyoming. More than 50,000 acres are said to be involved. This is the second time within six weeks that Senator Warren's name has been mentioned in connection with alleged land frauds.

THE FAR-FLUNG lines of Harriman were put under investigation before the Interstate Commerce Commission in New York and the startling facts and figures brought forth to demonstrate that the giant of Broadway is the biggest railroad master in the world. The purpose of the inquiry was to find out whether or not the Sherman anti-trust law is being violated by Harriman and his associates in the joint control and non-competitive operation of the various Harriman lines and lines not generally known as "Harriman," but which yield to his commands. Among other things it was shown that E. H. Harriman is practically the "whole thing." The directors of his various companies always do exactly as he recommends. They give him power to buy railroads, build railroads, sell railroads, do as he pleases with railroads and with money without even referring the matters to their consideration. The commission was astounded to learn of the enormous powers given Harriman by the executive committee of the Union Pacific Railroad. The powers of the railroad magnates seem to grow rather than wane.

SPECIAL AGENT WM. WHITTIAM, jr., who was sent to England last fall to investigate the cotton trade made his first report to the Department of Commerce and Labor today. He says for some two and a half years every branch of the British cotton trade has been very profitable and this has led to an unprecedented activity in mill building. This, he concludes, is bound to intensify competition in foreign markets, and when all the new machinery is in operation American manufacturers will have to fight more strenuously then ever before if the American export trade is to increase to any appreciable extent.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, Jan. 5.

Before the end of the present year every colored regiment in the United States Army will be serving in the Philippine Islands. An order of the Secretary of War, which, in view of the recent agitation over the dismissal of colored troops of the 25th Infantry, is regarded as most significant, directs that the 25th Infantry and the 9th and 10th Cavalry, the only three colored regiments now stationed in this country, shall proceed to the Philippines during 1907 for tours of duty there. There are only four colored regiments in the army, namely, the 24th and 25th Infantry, and the 9th and 10th Cavalry. The 24th Infantry is already in the Philippines, and when the three other regiments go there will be no colored troops left in this country. There is no question whatever but that the sending of these regiments to the Philippines resulted largely because of the Brownsville affray and the recent outburst in Congress and elsewhere over the dismissal by the President of an entire battalion of the 25th Infantry.

The leaders in Congress have apparently determined upon a policy of masterly inactivity, so far as real legislation is concerned, for the rest of the session. Just how much this programme results from the growing breach between the President and the Senate is a question. But it is a fact that the recommendations made by the President in his annual message are receiving mighty little attention. The Senate leaders are in a peculiarly good situation to enforce their policy. They have seized upon the Brownsville incident with avidity and evidently propose to discuss it in all of its ramifications. When that is removed from the floor there is always the Smoot case, the question of State's rights, the Japanese school question, to fill the gap and provide food for talk pending the arrival of the appropriation bills. Three or four subjects are scheduled for discussion next week. Senator Gearin, of Oregon, has given notice that he wants to speak on his resolution urging the President to enter into negotiations with the Japanese government for the purpose of securing a modification of the existing treaty so far as it effects the rights of Japanese residents in this country. Senator McCumber is waiting patiently for an opportunity to secure consideration of his general service pension bill. Senator Overman has also announced that he wants to speak on Tuesday on State's rights. On Thursday the Senate will proceed to vote on Senator LaFollette's bill to promote the safety of railroad employees and travellers by limiting the time of service of the employees to not more than sixteen consecutive hours. The foreign relations committee will resume consideration of the Congo resolution which promises the President the support of the Senate in any steps he may take to assist in bringing about an international inquiry into the affairs of the Congo Free State. The first of the big appropriation bills, the executive, legislative and judicial bill, will be reported during the week. The sub-committee has left for the consideration of the full committee the amendment to increase the salaries of Senators and Members of Congress from $5,000 to $7,500 a year. The coming week in the House will afford opportunities for Members to cut loose with speeches on the pressing questions of the day—railroad wrecks, ship subsidy, Brownsville, Panama, immigration reform, corruption in politics, and elastic currency. The fortifications bill and the District of Columbia appropriation bill will ostensibly have the boards. The big fight of the week will center around the ship subsidy squabble now going on in the committee on merchant marine and fisheries. The rivers and harbors committee, now framing the improvement measure, is the most popular committee at present in the House. The military affairs committee has the measure of Representative Slayden calling for the dismissal of all negro troops in the United States army. The elastic currency measure, reported by the banking and currency committee, and advocated by Secretary Shaw and all of the bankers of the country, will be pressed by its friends.

"It is baseless from beginning to end" is the way Henry W. Taft, counsel for the New York Cotton Exchange today characterized the charges filed against the institution by Representative Livingston of Georgia and Harvie W. Jordan, former president of the Southern Cotton Exchange.

At today's session of the coroner's inquest into the B. & O., wreck at Terra Cotta, B. J. Vermillion, engineer of the ill-fated train testified to a great density of the fog on the night of the accident and as to the burden of responsibility being upon the crew of the on coming train. He said they should have been on the lookout for him. He didn't know, and would have no means of knowing that the train was approaching, he said.

Unless the War Department is authorized by Congress to give the non-commissioned officers and men of the coast artillery better pay than they are now getting, that arm of the service is likely to become useless for lack of men. President Roosevelt and Representative Hull, chairman of the House committee on military affairs, had a conference this morning and it was agreed that an increase of pay be asked for. "The coast artillery service," said Congressman Hull, "requires a very superior class of men. First class electricians and mechanical engineers are needed and such men are worth $100 or $125 a month in private life."

President Roosevelt told a number of senatorial callers today that any bill Congress might pass providing for restoration to the army of the negro troops of the 25th Infantry would be the "veriest waste of paper." The President added that he was the Commander in Chief of the army, knew his power, and was very certain that he had not exceeded his authority when he dismissed the men from the service. Senator Martin, of Virginia, who was one of the Senators with whom the President discussed the matter today, told the President that he fully agreed with him and volunteered the remark afterwards that "altogether too much fuss has been made over the affair."

Threatened with a formal presentment before the United States Supreme Court for the alleged contempt of a mandate of that tribunal, "loyalist" members in Norfolk of the Junior Order United American Mechanics say that they have no fears, claiming that they are working under instructions and with the support of the National Council. Threats of jail bars, they say, will not deter them, and they will continue work under their charter secured from the State Corporation Commission. On application of the "insurgents," the Supreme Court forbade the loyalists to operate in opposition to, or in like manner with the insurgents. But that was before the loyalists secured a charter. What effect the charter might have on the court remains to be seen.

President Finley, Manager of Transportation Seale and the general superintendent of the Southern Railway were in conference in Washington yesterday with a committee representing the conductors and other trainmen of the Southern concerning a request made by the men for an increase of wages varying from 10 to 20 per cent. The meeting is one of the annual conferences which take place between the officials of the system and the trainmen to determine any grievances the latter may have and to consider any question of wages. It probably will be two or three days before the question of pay and other matters in conference will be adjusted. The men say that they are compelled to ask the increases on account of the increased cost of living.

Negro Lynched in Alabama.

A negro was lynched for attempted criminal assault at Midway, Ala., yesterday by citizens, who hanged him up to a tree and riddled his body with bullets. The negro had only recently returned from the penitentiary. Wednesday night he entered the room of Miss Morrell King, daughter of a banker at Midway, and grasped her hand before she awoke. Her screams attracted the other inmates of the house, and the negro ran away. Citizens immediately set out after the negro and captured him Thursday. When brought to Midway yesterday morning he confessed and the lynching followed. After the excitement had subdued it was established that the negro lynched was Will Scott, a notorious character.

Lynes is still in custody.

New York Stock Market.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against the use of Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop, it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by E. S. Leadbeater & Sons, druggists.

Today's Telegraphic News

Anxiety for Steamer.

San Francisco, Jan. 5.—The apprehension concerning the fate of the passengers and crew of the steamer City of Panama continues. From wreckage, &c., washed ashore there can be no doubt of the fate of the steamer.

The City of Panama sailed from this port on Monday afternoon in charge of Captain Benson. Her first stop was to have been at Ancon. Dr. Coe, one of her passengers, intended to make a stop at Panama to make an investigation of hygienic conditions to make a report to the Medical Editors Association of which he was president, and to President Roosevelt. A terrific southeastern gale has been prevailing along the coast for several days and fears have been entertained for several vessels which should have been in this vicinity. The City of Panama, regarded as an old and worn-out boat, probably fared badly in the storm. She could not have escaped the gale, and there is every outward indication that it proved too much for her.

The fact that the rafts which come ashore were provisioned, has led to the belief that that they were washed off before the passengers were ready to leave the ship, or that passengers were swept from them into the sea after seeking refuge on the rafts. In the latter event all probably have perished, while, if the former theory is true, there is a chance that the old vessel is still afloat and her crew and passengers may be saved.

President Corey and Mabelle Gilman.

Paris, Jan. 5.—William E. Corey, Pittsburg millionaire and president of the steel trust, is living under the same roof with Mabelle Gilman, the actress whom he soon will marry, according to the latest reports. Mr. Corey, his fiance, a sister, and Miss Gilman's mother have been living together in the Chateau Ville Degenis, near Massy Ferrieres, since the night of December 21. The steel magnate bought the country place three months ago, paying 650,000 francs for it. The American millionaire and Miss Gilman are together constantly. They go out automobiling every day. No license has been asked for, as the date for the wedding is not yet known.

Braddock, Pa., Jan 5.—A close friend of the Corey family said today "President Wm. E. Corey, of the United States Steel Corporation, will marry Mabelle Gilman and he is now at her chateau near Versailles, France. He will not resign the presidency of the steel corporation and he will re-visit the home of his parents in North Braddock, where his former wife, Mrs. Laura Cook Corey, who divorced him last fall, at Reno, Nevada, is also residing."

China Wants International Conference.

Berlin, Jan. 5.—Official confirmation was given today of the report that the Chinese government has invited the United States, England, Germany, Russia and France to send delegates to an international conference at Pekin, to discuss the commerical future of Manchuria. Behind the invitation, it is now known, is a deep laid scheme on the part of China to wrest the control of Manchuria from Japan. In carrying out this plan, China hopes to enlist the powers named to back her.

The whole object of China in calling such a conference, it is stated, is to get other powers so deeply interested in Manchuria that they will support China in evading her treaty with Japan covering commerical rights in Manchuria. Japan is clamoring for the concessions she claims, and China does not wish to grant them.

When the commerical experts arrive on the scene and perceive the possibilities of Manchuria revealed it is believed their reports to their governments will cause all the powers interested to hesitate before agreeing to allow Japan to enjoy this plum herself.

Fierce Battle Reported.

Tangier, Morocco, Jan. 5.—A fierce fight is in progress between the soldiers of Raisuli, the bandit, who has terrorized this region for so long, and the government forces, according to reports received here from Arzilla, Zinat, where Raisuli has been encamped ever since he left the suburbs of Tangier, is the scene of the battle.

Raisuli was the aggressor in the battle. In a determined effort to cut his way through the loyal troops, which were fast closing in on him, and escape to his stronghold in the mountains, he is reported to have attacked the forces of Sidi Mohammed Gabas, Moroccan War Minister.

Scant details of the fighting are obtainable, but it is said the bandit was victorious. He has made his way through the surrounding cordon with the majority of his army.

Lady Yarmouth in Seclusion.

London, Jan. 5.—In almost nun-like seclusion Lady Yarmouth, who was Alice Cornelia Thaw, has kept herself since her brother, Harry K. Thaw, killed Stanford White. She has shut herself up in the Yarmouth country estate at Park Hall, Salford Priory, and makes no pretense of meeting anyone. Queen Alexandra sent a personal message of sympathy to her through Lady Herford, mother of the Earl of Yarmouth. Although the young peeress was presented at court a few months after the wedding, she has not attended and probably will not for some time to come, except at command of their majesties.

Investigating Harriman System.

New York, Jan. 5.—With the resumption today of the Interstate Commerce Commission's investigation of the Harriman railroad and steamship combination, the complete control of E. H. Harriman of the great systems involved was shown even more conclusively than yesterday. It was shown that he is absolute master of over 25,000 miles of railroad lines, representing an outlay of over $35,000,000,000. With his power unhampered he bought in the stock of various roads until able to control them and the sole concern of directors was to confirm his acts.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of small and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c per bottle. Take Hall's Family Pills for constipation.

Investigating the Wreck.

Washington, Jan. 5.—Upon being recalled to the stand before the Interstate Commerce Commission today, Engineer Hildebrand, of the extra train which last Sunday night ploughed into the rear of the passenger train at Terra Cotta, said that the dense fog prevented his seeing the signal arms, or even the top of the signal pole at Takoma station. He suggested that a torpedo or fuses should have been placed on the track indicating danger.

Hildebrand said that the top of the boiler might obstruct his vision of a signal at a close distance from a station. His lookout in front of the cab was only a foot wide, and his seat was about five feet back of the window.

Hildebrand denied that he had ever gone to sleep while on duty or that he was addicted to the use of liquor. He occasionally took a glass of beer or whisky, but never while on duty, and had not taken anything during the holidays. He admitted that at times he had been compelled to go on duty when he had not had sufficient rest. He asserted that in the present instance he was in good condition notwithstading he had only eight hours sleep in 48.

The engineer then made the startling statement that the only clocks with which his watch could be compared were very irregular, that they were not relied upon generally by engineers and conductors and that sometimes they actually ran down. He did not even know the location of the standard clock in his division, unless it was the one in the engine despatcher's office in Baltimore, and this clock, he said, "did not run half the time." Hildebrand thought there was a standard clock in the train despatcher's office in Camden station, Baltimore, but he never saw it. Fireman J. McLellan was then called to the stand.

Threw Bomb in Bank.

Philadelphia, Jan. 5.—Shortly before noon today an unknown man hurled a bomb into the Fourth Street National Bank.

The resulting explosion tore the bomb thrower to pieces and killed W. Z. McClear, the assistant cashier.

Several other employees and patrons were injured.

A clerk named McIlhane is among the injured, two of whom may die.

The bomb thrower had demanded money from President Rushton, and when this was refused he hurled the deadly missile.

A slight fire followed and tenants in the Bullitt building fled from their offices but there were no casualties.

ANOTHER DISPATCH.

Philadelphia, Jan. 5.—An anarchist today set off an internal machine in the Fourth Street National Bank, on Fourth street, below Walnut.

The building was completely wrecked, two men were killed, one the cashier of the bank, and a score were injured.

Wm. Krump, colored, porter, had half of his face blown off and eyes blown out. He was horribly burned. He may die.

It was shortly before noon when the financial district is crowded that the explosion occurred and a panic ensued.

President Rushton says the man who threw the bomb gave his name as G. E. Williams, and that he resided in the suburbs.

Funeral of the Baroness Burdett-Coutts.

London, Jan. 5.—With demonstrations of popular approval seldom witnessed in London, the bod of the late Baroness Burdett Coutts, was interred today in Westminster Abbey with appropriate ceremonies. A remarkable tribute was paid the memory of the deceased philanthropist. King Edward, Queen Alexandra, the Prince and Princess of Wales and other members of the royal family were represented in the Abbey. Among the pallbearers were the Duke of Argyll and Wellington, Prince Francis of Teck, and Viscount Peal.

Sensation on Stock Exchange.

Boston, Jan. 5.—Pandemonium reigned in the Boston Exchange today, and the crowd of brokers who surged about the Trinity pole were half crazed a little later when the stock fell with a crash from 40 to 26, entailing a loss of between $3,000,000 and $4,000,000 to those who had bought on yesterday's rise. It was the most sensational half day's trading in the history of the Boston Stock Exchange. Later, the stock recovered to 32

American Tobacco Company.

Newark, N. J., Jan. 5.—Vice Chancellor Pitney today filed an opinion conditionally dismissing the bill filed against the American Tobacco Company, by George August Beling, of Bayonnes to have set aside the merger by which the defendant company was formed out of the original American Tobacco Company, Consolidated Tobacco Company and Continental Tobacco Company.

Poking Fun at Rockefeller.

Paris, Jan. 5.—All Paris is having fun with John D. Rockefeller today for his quotations of Lamartine: "I've seen little ill in the world. I remember only the good." The writer's suggestion that the French author might not be flattered at being the oil king's guiding star, and asks whether it is possible that he is forming a trust of illusions.

Workmen Killed by Landslide.

Berlin, Jan. 5.—Forty workmen are believed to have been killed in a landslide which occurred yesterday on a railroad line being constructed between Lamschied and Hunsruck. The men were buried under hundreds of tons of rock and gravel. Three bodies have been recovered by rescuers. It is feared all have perished.

Office Moved to Washington.

The car records office of the northern district of the Southern Railway was moved yesterday to Washington from Danville. The offices gave employment to eighteen persons and were moved from Washington to Danville several months ago. It has since been decided that to facilitate the proper handling of freight the offices should be located in one place. The same offices for the Charlotte, Birmingham, and Knoxville districts of the Southern also go back to Washington.

Wore Mourning Gloves.

Representative H. L. Maynard, of Virginia, appeared in the House yesterday wearing mourning gloves. He gazed tearfully at the many vacant seats in the House and solemnly announced that the gloves were symbolic of his "respect for the dear departed," meaning the large list of absentees from the session, which again prevented the House from having a quorum.

The only man who really liked the joke was John Wesley Gaines, of Tennessee, who has introduced a bill in the House to "dock" every member $13.70 for every day's absence.

Entertained Minors.

The case of Mary Belmont, proprietress of a house in the northeastern section of the city, who was charged with harboring and entertaining minors, came before Justice Caton in the Police Court this morning. Three youths, whose ages range from 16 to 19 years, were arraigned as witnesses They testified that they had on certain occasions been entertained in the woman's house, had purchased beer there and had at times remained there all night.

The Belment woman in her defense said that she had asked the boys their respective ages and they had told her they were 21 years old. [The boys admitted that they had so informed her.] The woman further said that she had endeavored to keep minors from her house, and had at times put youngsters out. When the witnesses visited her house they told her they were of age, and a married man vouched for one of them. She stated that on one occasion a man visited her house with his son, the latter being under age, and that notwithstanding the father vouched for the son, she excluded the youngster.

The justice imposed a fine of $20 upon the accused, and admonished the boys that should they be caught in the house again or in the neighborhood they would be sent to prison.

In the testimony in the case it developed that the youngsters are furnished with liquor at several places in the city. They mentioned three places in which they had recently been entertained, but said they had drunk in all saloons. The youths were retained at the station house in order to enable the police to get the facts in connection with their confessions and warrants will doubtless be issued against at least three saloonkeepers for selling liquor to minors.

The ladies never looked prettier and their costumes were most becoming. The chaperones were Mrs. Henry F. Robertson, Mrs. A. D. Brockett, Mrs. J. S. Douglas, Mrs. George Mushbach, Mrs. George Uhler; Mrs. Carroll Ashby and Mrs. Faulconer. Among the out-of-town ladies present were Miss England, of Baltimore; Miss Maitland, of Fredericksburg; Miss Mary Donohoe and Mrs. Thornton, of Fairfax; Miss Mary Hooff and Miss Micou, of the Theological Seminary; Miss White, Miss Foster, Miss McClellan, Miss Dorothy Gatewood and Miss Selden, of Washington.

The Wright Case.

The attorney general for the State has received the papers in the case of Joseph Thomas, alias John Wright, colored, who had been sentenced to be hanged in Alexandria county on December 14 last, and Commonwealth's Attorney Crandall Mackey, of the county, has been informed that the case will be taken up by the Court of Appeals on Tuesday instead of next March, as had been anticipated.

At the meeting of the county supervisors, held yesterday, the bill of Augustus Davis for the sum of $395 for the erection of a scaffold for Wright's execution was presented, and the board refused to pay the bill on the ground that the price was exorbitant. Finally it was decided to pay Mr. Davis $150 for the work.

Case Dismissed.

The case of the agents of the National Sick and Accident Beneficial Association who had been cited to appear in the Police Court to show cause why they should not be fined for conducting the insurance business without a license, was disposed of by Justice Caton in the Police Court this morning. The justice dismissed the charge against the agents on the grounds that the organization they represented was fraternal and that the business was conducted upon lodge principals; also from the fact that the bureau of insurance of the Corporation Commission had issued a license to the association in which it was specified that this was in lieu of any State, city or county tax or license. Mr. S. G. Brent Commonwealth's Attorney, has noted an appeal.

Another Christmas Festival.

The Woman's Christian Temperance Union night school, superintended by Miss Fannie Burke, was given a Christmas festival by the superintendent, assisted by the union, last evening in Christ Church Parish Hall. No literary programme was rendered, but a supper, consisting of roast turkey, potato salad, rolls and butter, cranberry sauce, cocoa and candy, was served. The good things were greatly enjoyed, and altogether everybody spent a very pleasant evening. All the pupils expressed regret that Miss Burke was unable to be present, she being ill at her home. Her faithful corps of assistant teachers was aided by the president of the W. C. T. U. in serving the supper and making things pleasant for the fifty-five pupils. The school will be held each week on Tuesday and Friday evenings for study in Parish Hall of Christ Church.

Twelfth Day.

Tomorrow will be the feast of Epiphany, or Twelfth Day. It is one of the chief festivals of the Christian Church, kept as the closing of the Christmas commemoration.

The name Epiphany comes from the Greek and means an appearance or manifestation, used especially with reference to appearance of a deity. Among the ancient Greeks it was a festival held in commemoration of the appearance of a god in any particular place. In the Christian religion it commemorates the manifestations of Christ to the world as the Son of God.

Heroic Rescue of Boy.

Little Wm. Oliver, aged 5 years, was miraculously saved from drowning yesterday morning by his cousin, Frank Oliver, at the home of the boy's grandfather, near Corner's Springs, in Roanoke county, Va. The boy and his sister were on a visit to their grandparents, and went to the well to draw some water. The well is 80 feet deep, with 20 feet of water. While pulling the rope which drew up the bucket the little boy fell in. His sister at once gave the alarm. Frank Oliver rushed out and climbed down the slimy stone wall. He reached the boy just in the nick of time, as the lad was unconscious. He sent the boy up on the bucket, but fearing the rope was not stout enough to hold his own weight Oliver held his perilous position nearly two hours, until neighbors could be notified and a strong rope was lowered to him. This he fastened around his body, and when willing hands drew him up he fell exhausted on the ground, but soon recovered. The boy was resuscitated.

Stayed in Bed to Keep Warm.

Reports of how North Dakota stood the cold wave of the last three days received at Minneapolis last night show that the suffering was great on account of lack of fuel. Thursday the temperature averaged 20° below zero. Many towns along the line of the Great Northwestern railroad tell stories of residents being forced to remain in bed all day to keep warm, and of burning up fences and outhouses to make the temperature of their homes bearable. Many farmers, after feeding their stock, went to the towns, where they could shelter their families. The railroads are doing their best to get coal to the suffering towns. Warmer weather is predicted.
